Foreman Negrous have equal rights to life, theory head more upon the life, theory head more upon the life, theory has been upon the life, and the life will be entablished, to have the white on bleck to save one another per about resprectly could be acting but fairness.

Fore, —1. is every intribular's duty

Firm — It is every todardum's duty, to self and to society, to be occupied in seful employment artificient to gain selfupport.

SXTS—14 would be the greatest catanity that the power of the United Statest could inflict upon California. Havenys—We desire only a white population in California; even the Lediana amboget us, as far as we have seen, are more of a puisance than a benefit to the

main of a nuisence then a benefit to the numbry, we would like to get rid of then. Eugene. We left the slave States he cause we did see the to being up a familia in a miserable, can 't-belp-one' saft condtion; which face would be inevitable to family of any kind of expectability, surjounded by slavery. Nextu In conclusion, we dearly low the "Union," but declare our positive proference for an independent condition of

f free blacks.

We may recur to this subject again.

in discontinua adventionment and subscriptions of W. A. Edelberderff, Eq., Marson, Belleite d. How W. A. Edelberderff, Eq., Marson, Belleite d. How W. and d. St. M., We hope, however, that the hestologies large commercial business of the town will have been been been been been been as for the property of the property of the proleit of the property of the property of the temportry deposition. Merce, Dickson to de Hay inform us that they de not intend to curtail any, but, on the contraty, six afreatly harge luminous, W. H. Davis, Eq., afreatly harge luminous, W. H. Davis, Eq., and Mesers, Shirly d. Norris, and others, we also learn, intend to continue their inprocess as herefore, W. asks learn that several merchants are either preparing to sett, or are already on their way to this sett, or are already on their way to this

Our weekly prices ou things correctly.

We can assertly one that his provious of fashwan and Pontific streets, but belief and of fashwan and Pontific streets, but belief that Mr. E. P. Josep, the claimans of Streets Commission, sould have the work of the pontification of the test was worth this price, and prohaps it not a worth the price, and prohaps it not a worth the price and which has been field union. Mr. Jones, and which had be a better that the price and which had been field union. Mr. Jones, and which had been field union of the price and which had been field union. Mr. Jones, and which had been field union of the price and the price and

If Mr. Jones does not profit presentingly by the present mode of design the work, why should be refuse to give it out by special contract. We don't know who become to be the contract of the work of the work of the work of the work of the wind misseningsment. We will be glad to insert anything that others may offer to the contract.

We present our just can this seek with without prices current of San Prancisco, which will be corrected weekly. Our mochants have received heavy stechs of spiritconnect asyimate, from the United States are recent asyimate. We expenditly invision to purchasers. We expenditly invision to purchasers. We expenditly invision to purchasers with the expension of which the property of the purchasers of which the purchasers will be a support of the wind this place; from the moved enhance stacks now on, head, and expended arrival they will be enabled to make, but and can they will be enabled to make, but and can

> The trip through the country on the North to of the Bay San Francisco, "to be conued," shell appear next week.

The more principles have excepted from solidanment within the past week, in this shadow. On the first was the parson movined for orbitral Smith & ext.
The money sepanded in making and filing than "says has" at the floot of Captured, would, have paid for the construction of a substantial princip.

We have repealed a well-writine contentlication over the signature of "Amigo." pring an assessment of the endstream of Washington's birth-flay, if Company F. N. F. V. and citizens of the place. Things are represented to have passed off in fine spie, to the green ipy and ansectment of all. From appears forderings were held at the

presented in Califfornia. We like innovement in and findle, but the length of the account of the proceedings accessarily exclude it on our exhaust. We would very much the se have "Amigo" correspond regularly in us, on mixture of general interestance of the second interestance of the contract of the substitute of the contract of the substitute, sative and foreign, fix. Sec. We know Amigo" to be capable j, his present proceeding all the contract of the substitute of the contract of the contr

Max Drowrenc.—As the leurch: "Toni"" passed up the Suirm IIs, her small
out got strift, one of the hands on board
thempted to swin to recover it, but soon
found himself unable to do so, and gave
signs of the danger he was in from the
oboldness of the water, and tried to return
to the luxuelt ngain. Every effort was
nucle by Mr. Long and others on board to
were him, but in vain.

Penny France—Theorems of California channel in fish of various kinds, this we know been generall observation. A few stone breath growth in fisher matter trees, the strength from the fisher entire trees, and the strength of the very ready sale. So insignificant was all on white supervisioners that he province are. The existence of the province are, The existence of the province are the province of the province o

Ca in California, are sensing sold out.

Lead and other speculations, and shifting lead and other speculations, and shifting leading to the self-shifting sensitive strength of the self-shifting sensitive se

Capt. J. L. Folson, U. S. Quarter Mas for at this place, requests us to state, that to Government Mail, for offstal reports, des (Los Angeles, for the United State, vi-Sante Fe, New Mexico, early in May bearer, will be germitted, for the yubble as commodation, in take highly offster, from a heavy profiling or presequences should be and, as they carried to taken. All letter San Francisco, getor to Monday, Agrid 13.

A horse race came off at the Deloves Nils was concess, when consended the policy of the Nils was concess. The policy March 6th, horseen a horse of W. A cheidsdorff Y. Eeq., of this place, and one a Mr. Hedgesch of Honoreas. The Judges de the sheet of the cher at the carried or place. We are not sequented with the anguage of the turf, and consequently on language of the turf, and consequently on

Gold Mout Poors—In the newly mate received of the Baw Mail received on the Max Mail received on Fork gold has been found in considerable quantities. One perses brought thirty dollars work to New Hovetin, gathere there in a short time. California, mo doubt is right in minoral wealth; great chance here for sciontific capitalists. Gold he been found in admost very part of these found in admost very part of the

Pair singula. Four Grance...Cape. Fixes, areas, of the Surarra Massive's department of this place, has had letter boses from pin for the accommendation of those receiving letters from the South by the Grance mail. We presume the Captain would have no objection to the receipte would have no objection to the receipte would have no objection to the surprise to the control of the co

Quickenters Mirss.—By a gentleman secondly from the vicinity of the quickeler mine at Santa Clara, the property of Means, Forbies & Co., we learn that the verage quantity extracted per day, is about two hundred pounds, and that with

a reege quantity extracted per day, is about two hundred pounds, and that with quite inferior machinery and with but few hands. Other mines have been found in different parts of the country. Our list of rubscribers has been equal-

Our list of subscribers has been considerably enlarged during the past week, for riship we are under many obligations to ome of our vigilant agents. They will leave at all times send the names of raw abscribers at the first opportunity offering.

Corren Manes.—Immense bede of expore rote has been recently discovered in the vicinity of Clear Lake, North of the By of vicinity of Clear Lake, North of the By of the control of the second of the control of the country, in search of minerals, the excult of their labours will be published when completed.

Garran Bean.—Three young Indiase the Rancho of Sen'r. Armin, in Saise siley, while absent on foot, were attack and killed by one of those mounter seeple should be careful not to travel on out at this sensors of the year, in section of the third three three should be sensored at the sensors of the year, in section of the sensors of the year, in section of the sensors of the year.

Stone Coal of good quality has been und in the bed of a small creek in Ulatuality, North of the Bay of San Francisco, apposed to have been washed out of the

For the Colifornia

Nor set down neght in malice!"—
Mr. Ecites,—Having seen a commerciation in a late nonther of your valuable coursel, signed "A Lover of Good Order, which from its metaphorical, illustrative may be a more converted to the appropriation of a liew observations calculated it scully one or more matter to the appropriation of a liew observations calculated the scully one or more matters which you called the scully one of the supervision of a liew observations calculated the scully of the state of the supervision of a liew observations and the scully of the scull of the scully of the scull o

It has been essented by wowe than one jedium in this immediates benefity, what you, within a limit immediate benefity over you relativisticity of any accusation, lowred deregatively to truth, sat forth against present already to truth, sat forth against present already. I however, undertake ascert I know you better, and taking a sacert I wow you better, and taking a consideration of the received of the pology for treelol. I trust will plead my apology for treel-
